

November 16, 2020

Dear King Members, Friends, and Family:

As we begin another Monday here at King, I'd like to wish you all a safe and healthy week.

We are beginning to see some recoveries from the coronavirus here at King. Since our report on Friday, November 13, 2020 we've had one member and 21 employees recover from COVID-19. We have not had any more members test positive, but we have had five additional staff test positive for the virus. In total, we have 13 members and 25 staff with coronavirus. Sadly, we did have a death of a member over the weekend related to COVID-19. Our deepest sympathies to the member's family and friends.

We are all seeing the news about COVID-19 but I'd like to share one of the more alarming pieces of information I've seen. Our state took more than seven months to reach our first 100,000 cases of COVID-19 after the pandemic began in March. Then, we added another 100,000 cases in a little over a month's time. Now, we've recorded the next 100,000 cases in just 18 days. COVID-19 is skyrocketing in Wisconsin and we need to work together to stop it.

We realize that it is harder and harder to maintain your distance from those outside your household as this pandemic continues. But it is more important than ever that you protect yourself and others by staying home when possible, maintaining six feet of distance from others when you must go out, wearing a mask, and washing your hands regularly.

Sincerely,

Tammy Servatius, Commandant
